1) An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Specification pg. 5, line 10 and line 14, pg. 13, line 13 and line 19, in each of said locations remove word "pre-formed".

2) The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is that the cited prior art does not show a method of incorporating a continuous fibriform smoke-modifying element in a smoking material rod, including the step of: providing the continuous fibriform smoke-modifying element at a location remote from a smoking material rod-making machine (claims 19, 26); feeding the continuous fibriform smoke-modifying element from a location remote from a smoking material rod-making machine (claims 38, 40-43); feeding the fibriform as a sequence of discrete fibriform elements (claim 39).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
